

MIT FACULTY:

Would you like to have a playlist on our iPods?

The Lewis Music Library recently bought 5 iPods to promote the compact disc collection. MIT students, faculty, or staff members may borrow an iPod overnight (due the next day at closing) and explore more than 800 sample tracks of recently received discs. Shorter playlists, highlighting favorite CDs in the collection, have been created by library staff. Faculty are welcome to participate and share their musical tastes with the MIT community. Give us your list; we'll look up the CDs and add your selections.

- Playlists may contain up to 10 individual tracks from the Lewis Music Library's CD collection
- Tracks must be no more than 10 minutes long
- Each playlist will be named for its contributor
