FOR IMMEDIATE RELEASE

Forty-six industrial and government executives who have spent the past year as Sloan Fellows at the Massachusetts Institute of Technology will receive Master of Science in Management degrees at M.I.T. commencement exercises Friday (June 7).

The Sloan Fellows, all with experience in management, have been on leave from their companies and organizations for a full year of graduate level study. The Fellows were carefully selected by their companies and organizations and by M.I.T. on the basis of their past records and potential for future leadership. They studied in the M.I.T. Sloan School of Management.

During the year, the Sloan Fellows concentrated on the fundamentals that underlie management decisions, with special emphasis on economics, finance, accounting, marketing and human relations. Each member of the group was required to submit a thesis based on individual research.

The Sloan Fellows returned to Cambridge last week from a two-week trip to London, Frankfurt, Bonn, Moscow and Prague, during which they met with financial governmental, industrial and educational leaders. They were probably the first such group to visit Russia.

In addition to the annual European trip, the Sloan Fellows met with top corporate and government executives during field trips to New York City and Washington, D. C. Special evening seminars held throughout the year provide the Sloan Fellows with an opportunity to discuss management problems with some of the country's leading business executives.

The executive development program started in 1931 at M.I.T. and developed into a major program in 1938 through the interest of the late Alfred P. Sloan, Jr., an M.I.T. alumnus and former Chairman of the Board of the General Motors Corporation who recognized the need for well educated, professionally trained management executives.

The group this past year included men from Canada, Cyprus, England, Ireland, Japan, Norway, Peru, Switzerland and Yugoslavia.

The names and companies of the graduating Sloan Fellows follow:

--more--

Sloan Fellows -- 2

William E. Benton of Silver City, New Mexico, Kennecott Copper Corporation, Hurley, New Mexico, (B.S.I.E. 1959, Texas Technological College).

Hugh K. Bowden of London, England, formerly of Wichita, Kansas, Continental Oil Co. Limited, Denver, Colorado, (B.S.Ch.E. 1954, University of Kansas).

Harold T. Bright of North Warren, Pennsylvania, Sylvania Electric Products, Inc., Warren, Pennsylvania, (B.S. 1951, Kent State University).

David H. Campbell of Cranford, New Jersey, Radio Corporation of America, New York New York, (B.S. 1960, Rutgers University).

Hollis L. Caswell of Mount Kisco, New York, IBM Corporation, Harrison, New York, (B.A. 1953, Carleton College, M.S. 1955, Ph.D. 1958, Cornell University).
