Instructions for Installing ArcGIS 10.1

All site licenses at MIT are exclusively run on an MIT only basis to insure our adherence to the site licenses. If you are currently not on the MIT Network, you will need to run a virtual private network. See this page to run one on your home PC:  http://ist.mit.edu/vpn

1. After downloading ArcGIS 10.1, extract all files.
2. Once extracted, open the folder and run ESRI.exe.
3. Click on “Setup” next to the ArcGIS Desktop heading.
4. You will see this installation screen:

Welcome to the ArcGIS 10.1 for Desktop Setup program

It is strongly recommended that you exit all Windows programs before running this setup program.
Click Cancel to quit setup and close any programs you have running.
Click Next to continue the installation.

WARNING: This program is protected by copyright law and international treaties.
Unauthorized reproduction or distribution of this program, or any portion of it, may result in severe civil and criminal penalties, and will be prosecuted to the maximum extent possible under law.

Click Help, < Back, Next >, or Cancel.

5. Click Next.
6. Read and accept the license restrictions. This license entitles you to use ArcGIS for MIT purposes only. Click Next.
7. In the next window, choose “Complete” installation and click Next.

8. Most users should choose the default location for saving ArcGIS, unless you know you would like the program installed in another location. Click Next.

![Image of ArcGIS 10.1 for Desktop Setup with Destination Folder selected]
9. The Python destination window opens next. Again, most users will choose the default. Click Next.

10. A confirmation window will open. Click Next and the installation will start. This can take up to 30 minutes.
11. If the installation was successful, you will see this window. Click Finish.
12. The ArcGIS Administrator Wizard window will open.
   b. Under “2. Define a License Manager for Concurrent Use products,” choose “Define a License Manager now:” Enter the license manager listed on the web site from which you downloaded the software.
   c. Click Ok.
You have successfully installed ArcGIS Desktop. The Administrator and Installation windows may appear. You can close these and begin using ArcGIS Desktop.
